

CRS Report for Congress

Received through the CRS Web

Taliban and the Drug Trade

Raphael F. Perl
Specialist in International Affairs
Foreign Affairs, Defense, and Trade Division

Summary

There is evidence that many terrorist organizations and some rogue regimes pressed for cash rely on the illicit drug trade as a source of income. In the case of Afghanistan, reports indicating that the drug trade is a major source of income for the Taliban have received growing attention. According to some reports, the regime uses poppy-derived income to arm, train and support fundamentalist groups including the Islamic Movement of Uzbekistan (IMU) and the Chechen resistance. There have also been allegations of Osama bin Laden's personal involvement in drug trafficking to finance al Qaeda's activities.

U.S. foreign drug policy currently focuses on reducing illicit drug supply to the United States, and only to a lesser extent on denying funding to organized international criminal or terrorist groups. Should the latter objectives receive greater priority, some policy and organizational realignment may be necessary.

This report will not be updated.

Afghanistan's Role in Drug Production

Afghanistan's role as the world's largest opium producer is well documented. Until recently, the majority of Afghan opium production had taken place in Taliban controlled territory. According to the Department of State's *International Narcotics Control Strategy Report, March 2001* (INCSR),¹ Afghanistan remained the world's major producer of opium poppy despite a protracted drought, and ongoing civil war. The report also noted that "the Taliban, which controls 96 percent of the territory where poppy is grown, promote(d) poppy cultivation to finance weapons purchases as well as military
