Philosophical Aspects of Globalization: A Multidisciplinary Inquiry, 2022-06-08. Globalization is a defining characteristic of our contemporary world with a reach and impact affecting all nations and peoples. *Philosophical Aspects of Globalization* is a collection of essays by leading contemporary Russian philosophers, scholars, and scientists concerned with addressing pressing issues of globalization from a philosophical point of view. The thirty-four authors who have contributed to this book represent a range of approaches and subfields of Global Studies in Russia, including topics such as theory of globalization, globalization and the environment, history and geopolitics, and globalization in cultural context. When compiled together in a single collection of essays, their work offers the English-speaking reader a comprehensive picture of new directions in Russian Global Studies in the twenty-first century, as well as demonstrates the importance of questions of globalization for philosophical inquiry in Russia today. Mastering Global Studies, James Killoran, Stuart Zimmer, Mark Jarrett, 1995.

Russia and the World, Natalia Tsvetkova, 2017-02-20. *Understanding International Relations: Russia and the World* examines world politics through the lens of Russia and its effects on the international system. Contributors to this volume examine Russian politics, economics, global and regional policies, and history in order to better understand Russia's place in world politics. This book explores the impact Russia has on international politics in three parts: how current theories in international relations studies treat Russia; the primary disputes in modern world politics relating to Russia and Russian policies and their effects around the world. This collection offers a comprehensive view of Russia's place in the global political system by exploring Russian foreign policy, the economy, and statecraft; the Arctic; global organizations; arms control; national security; the environment; soft power; and Russian relations with the United States, Europe, and Eurasia. *Reconsidering the Limits to Growth*, Viktor Sadovnichy, Askar Akaev, Ilya Ilyin, Sergey Malkov, Leonid Grinin, Andrey Korotayev, 2023-09-25. Echoing the famous *The Limits to Growth* report from 1972, this edited volume analyses the changes that the World System has undergone to the present on the fiftieth anniversary of the original report. During the past fifty years, both the concept and understanding of these limits have significantly changed. This book highlights that the evolution of the World System has approached a new critical milestone, moving into a fundamentally new phase of historical development when the old

economic and social technologies no longer work as efficiently as before or even begin to function counterproductively which leads the World System into a systemic crisis The book discusses the transition of human society to a new phase state the shape of which has not yet been determined New approaches are needed for both for the analysis of the global situation and for forecasts The book is based on an integrated approach including the world systems historical and evolutionary perspectives as well as a systematic view of society in which changes in one subsystem cause transformations in others Through mathematical modeling it defines the main vectors of transformations of the World System makes a detailed forecast of the development of all the main subsystems of the society and the World System while presenting horizons of changes from short term to ultra long term and presents different development scenarios as well as recommendations on how to achieve a transition to the most favorable scenario The book will appeal to members and followers of the Club of Rome policy makers as well as to scholars from various disciplines interested in a better understanding of the World System evolution global futures development studies climate change and future societies *International Studies*, 1969 [Making Global Knowledge in Local Contexts](#) Katarzyna Kaczmarek, 2020-04-08 This book draws on extensive ethnographic research undertaken in Russia to show how the wider sociopolitical context the political system relationship between the state and academia as well as the contours of the public debate shapes knowledge about international politics and influences scholars engagement with the policy world Combining an in depth study of the International Relations discipline in Russia with a robust methodological framework the book demonstrates that context not only bears on epistemic and disciplinary practices but also conditions scholars engagement with the wider public and policymakers This original study lends robust sociological foundations to the debate about knowledge in International Relations and the social sciences more broadly In particular the book questions contemporary thinking about the relationship between knowledge and politics by situating the university within rather than abstracting it from the political setting The monograph benefits from a comprehensive engagement with Russian language literature in the Sociology of Knowledge and critical reading of International Relations scholarship published in Russia This text will be of interest to scholars and students in International Relations Russian and Post Soviet Studies the Sociology of Knowledge Science and Technology Studies and Higher Education Studies It will appeal to those researching the knowledge policy nexus and knowledge production practices **Russian Schools and Universities in the World War** graf Pavel Nikolaevich Ignat'ev, D. M. Odinet's, 1929 **Globalistics and Globalization Studies: Aspects & Dimensions of Global Views** Arkadi D. Ursul, Endre Kiss, Alexander N. Chumakov, Olga G. Leonova, Tu Weiming, Peter G. Kirchsclaeger, Anthony Howell, Hae Kim, Jim Sheffield, 2014-04-30 Nowadays globalization processes have become all embracing But at the same time despite the ever increasing flow of publications on globalization our understanding and knowledge of it still leaves much to be desired Especially it concerns the global processes in general of which globalization is a part We also need to systematize our ideas about globalization and Global Studies to somehow fit the realities In particular

this concerns the education process because the current state of education will determine the way people will perceive reality in the forthcoming decades This yearbook aims at contributing to the solution of these important tasks It is the third in the series of yearbooks titled Globalistics and Globalization Studies This year it has the following subtitle Aspects Dimensions of Global Views Its authors consider globalization and Global Studies in different dimensions and aspects philosophical methodological and pedagogical in terms of various processes problems and perspectives Of course to some extent this means that this yearbook presents rather diverse materials But globalization itself is very diverse And its comprehension may proceed in the framework of different theoretical approaches and points of view In the present yearbook one can find perceptions of globalization and Global Studies by a number of scholars from different countries of the world and learn rather peculiar visions of globalization by the Russian scientists and educators The yearbook will be interesting to a wide range of researchers teachers students and all those who pay attention to global issues **Economic and Social**
