Dictionary of Globalization Andrew Jones, 2006-09-07 Publisher description

The Globalization and

Development Reader J. Timmons Roberts, Amy Bellone Hite, Nitsan Chorev, 2014-12-31 This revised and updated second edition of The Globalization and Development Reader builds on the considerable success of a first edition that has been used around the world. It combines selected readings and editorial material to provide a coherent text with global coverage reflecting new theoretical and empirical developments. Main text and core reference for students and professionals studying the processes of social change and development in third world countries. Carefully excerpted materials facilitate the understanding of classic and contemporary writings. Second edition includes 33 essential readings including 21 new selections. New pieces cover the impact of the recession in the global North, global inequality and uneven development, gender, international migration, the role of cities, agriculture and on the governance of pharmaceuticals and climate change politics. Increased coverage of China and India help to provide genuinely global coverage and for a student readership the materials have been subject to a higher degree of editing in the new edition. Includes a general introduction to the field and short insightful section introductions to each reading. New readings include selections by Alexander Gershenkron, Alice Amsden, Amartya Sen, Anne Marie Slaughter, Cecile Jackson, Dani Rodrik, David Harvey, Greta Krippner, Kathryn Sikkink, Leslie Sklair, Margaret E. Keck, Michael Burawoy, Nitsan Chorev, Oscar Lewis, Patrick Bond, Peter Evans, Philip McMichael, Pranab Bardhan, Ruth Pearson, Sarah Babb, Saskia Sassen and Steve Radelet. Global Media, Culture, and Identity Rohit

Chopra, Radhika Gajjala, 2012-10-02 This edited volume examines the ways that global media shapes relations between place, culture and identity. Through the included essays, Chopra and Gajjala offer a mix of theoretical reflections and empirical case studies that will help readers understand how the media can shape cultural identities and conversely how cultural formations can influence the political economy of global media. The interdisciplinary international scholars gathered here push the discussion of what it means to do global media studies beyond uncritical celebrations of the global media technologies or globalization as well as beyond perspectives that are a priori dismissive of the possibilities of global media. Some of the key questions and themes that the international contributors explore within the text include: Is the global audience of global television the same as the global audience of the internet? Can we conceptualize the global culture media identity dynamic beyond the discourse of postcolonialism? How does the globalization of media affect feelings of nationalism? How is the growth of a consumer global middle class spread and resisted through media? Global Media Identity and Culture takes a comparative media approach to addressing these and other issues across media forms including print, television, film and new media.

Globalisation Danilo Zolo, 2007 Abstract *Pentecostalism and Globalization* Steven M. Studebaker, 2010-09-20 In little over a century the Pentecostal movement has emerged from small bands of revival seekers to become one of the largest Christian groups in the world. Primarily a movement within Western Christianity for much of its brief history it is increasingly characterized as a global movement. Pentecostal theology and ministry in a Western context must engage global Pentecostalism and be willing to rethink its traditional patterns of thought and practice in light of the evolving nature of the

movement The essays in this book come mainly from the McMaster Divinity College 2008 Pentecostal Forum The Many Faces of Pentecostalism Pentecostalism and Globalization The first section outlines the nature of globalization and establishes it as the context for contemporary Pentecostal theology and ministry The other contributions explore the impact of globalization on traditional areas of Pentecostal theology such as Spirit baptism and speaking in tongues and twenty first century Pentecostal ministry *Global Ethics* Kimberly Hutchings,2018-08-17 This revised edition of Kimberly Hutchings s best selling textbook provides an accessible introduction to the field of Global Ethics for students of politics international relations and globalization It offers an overview and assessment of key perspectives in Global Ethics and their implications for substantive moral issues in global politics These include the morality of state and non state violence the obligations of rich to poor in a globalizing world and the scope and nature of international human rights The second edition contains expanded coverage of pressing contemporary issues relating to migration changes in the technologies of war and the global environment Hutchings s excellent book helps non specialist students to understand the assumptions underpinning different moral traditions and enables them to formulate their own views on how to approach moral judgement and prescription essential in a world which though it is shared by all possesses massive cultural differences and inequalities of power

Education in the Era of Globalization Klas Roth,Ilan Gur-Ze'ev,2007-10-11 Education seems to have lost its orientation in Western culture and is in disarray all over the globe in time of global transitions Globalizing capitalism is the general headline for some of the most profound deep and dramatic developments in our era that education must address The response of educationalists is only in its beginning and there is an urgent need to address the dramatic changes inflicted on promised to our era philosophically sociologically culturally ecologically physically aesthetically and politically In the proposed book we try to address the challenge of globalization to education in the broadest sense of the concept of education by treating this challenge in various perspectives through different disciplines and topics within which the challenge of globalization is conceived as the most profound dynamic of this historical moment a development that is realized in many diverse and different levels fields and spaces of human and natural existence The various texts in this collection written by some of the famous and interesting scholars in the field of philosophy of education and the sociology of education try to address the richness and diversity of the challenge of globalization It tries to reconstruct historically sociologically and philosophically the roots the practices and the fruits of globalization as a threat and as a gateway for new possibilities for today s education The collection is a meeting point for research that is not only analytical and critical but also offers new roads and possibilities for education in the 21st century in face of globalization As such this collection is unique in this field and opens the door for further research and public discussion on the future role of education Gospel and Globalisation
