

## INTRODUCTION

The Case 730 and 830 Series Tractor is powered by a rugged four cylinder spark ignition engine which features heavy duty precision type construction, usually found only in diesel engines. This engine is noted for its quiet operating characteristics and economy of operation.

Advanced engineering also includes the following outstanding features on Case Tractors.

### *Dual-Range Transmission*

The Case Dual-Range transmission, 8 speeds forward and 2 reverse, provides a working speed for every job on the farm in any type or condition of soil. The high speed (8th) road gear brings your fields closer to the farm yard in terms of non-productive time spent on the road.

### *"Comforized" Platform*

The "Deluxe Seat," easily accessible operating controls, well lighted "Tell-Easy" instrument panel; all features designed with the operator's comfort in mind are standard equipment on Case 730 and 830 Series Tractors.

### *Wide Range of Easily Adjustable Wheel Spacings*

Both front and rear wheel treads can be adjusted on Case Tractors for the various row spacings in a matter of minutes. One man can easily move the tire and rim to any of the tread positions.
