Globalization Opposing Viewpoints:

Globalization Sara M. Hamilton, 2008-07-01 Examines numerous viewpoints on the topic of globalization *Critical Perspectives on Free Trade and Globalization* Bridey Heing, 2017-12-15 Technology and travel have connected the world like never before making it easier than ever to trade goods and culture across borders But with the ease of trade has come questions about how best to use this increased connection and how all parties can benefit while protecting the world's most vulnerable workers This book will introduce students to the debate surrounding free trade and globalization to help them understand the nature of international commerce cultural exchanges brought on through trade and how the international economy is evolving *Globalization and Families* Bahira Trask, 2009-12-01 As our world becomes increasingly interconnected through economic integration technology communication and political transformation the sphere of the family is a fundamental arena where globalizing processes become realized For most individuals family in whatever configuration still remains the primary arrangement that meets certain social emotional and economic needs It is within families that decisions about work care movement and identity are negotiated contested and resolved Globalization has profound implications for how families assess the choices and challenges that accompany this process Families are integrated into the global economy through formal and informal work through production and consumption and through their relationship with nation states Moreover ever growing communication and information technologies allow families and individuals to have access to others in an unprecedented manner These relationships are accompanied by new conceptualizations of appropriate lifestyles identities and ideologies even among those who may never be able to access them Despite a general acknowledgement of the complexities and social significance inherent in globalization most analyses remain top down focused on the global economy corporate strategies and political streams This limited perspective on globalization has had profound implications for understanding social life The impact of globalization on gender ideologies work family relationships conceptualizations of children youth and the elderly have been virtually absent in mainstream approaches creating false impressions that dichotomize globalization as a separate process from the social order Moreover most approaches to globalization and social phenomena emphasize the Western experience These inaccurate assumptions have profound implications for families and for the globalization process itself In order to create and implement programs and policies that can harness globalization for the good of mankind and that could reverse some of the deleterious effects that have affected the world's most vulnerable populations we need to make the interplay between globalization and families a primary focus

English abstract Immer wieder wird behauptet dass unter dem Einfluss der weltweiten Globalisierung die Inhalte der Informations und Kommunikationsmedien nicht l nger im Ermessen einzelner Anbieter liegen sondern sich synchron zur Verschiebung der Besitzverh ltnisse von einzelnen Unternehmen zu einem globalen Netzwerk verstricken zu einem eindimensionalen Produkt in einer Branche die von wenigen Medienkonglomeraten geleitet und beherrscht wird Die vorliegende Arbeit berpr ft und diskutiert die Behauptung dass der zeitgen ssische medial gesteuerte Informationsaustausch sich auf eine allgemeine Medienideologie konzentriert Dabei wird der besondere Fokus auf die wirtschaftlichen Interessen der Medienunternehmen gelegt Die Frage die sich in diesem Kontext stellt lautet ob Medienkonzentration sofern sie existiert auch einen gewissen Nutzen hat oder ob sie schlichtweg eine Bedrohung der modernen Gesellschaft darstellt indem sie demokratische Grundprinzipien einschr nkt und unterdr ckt **Debating globalization** Kalina Konstantinova,2006
